

To change your connection method from direct connect to express web connect for existing Quicken accounts, please follow the steps below:

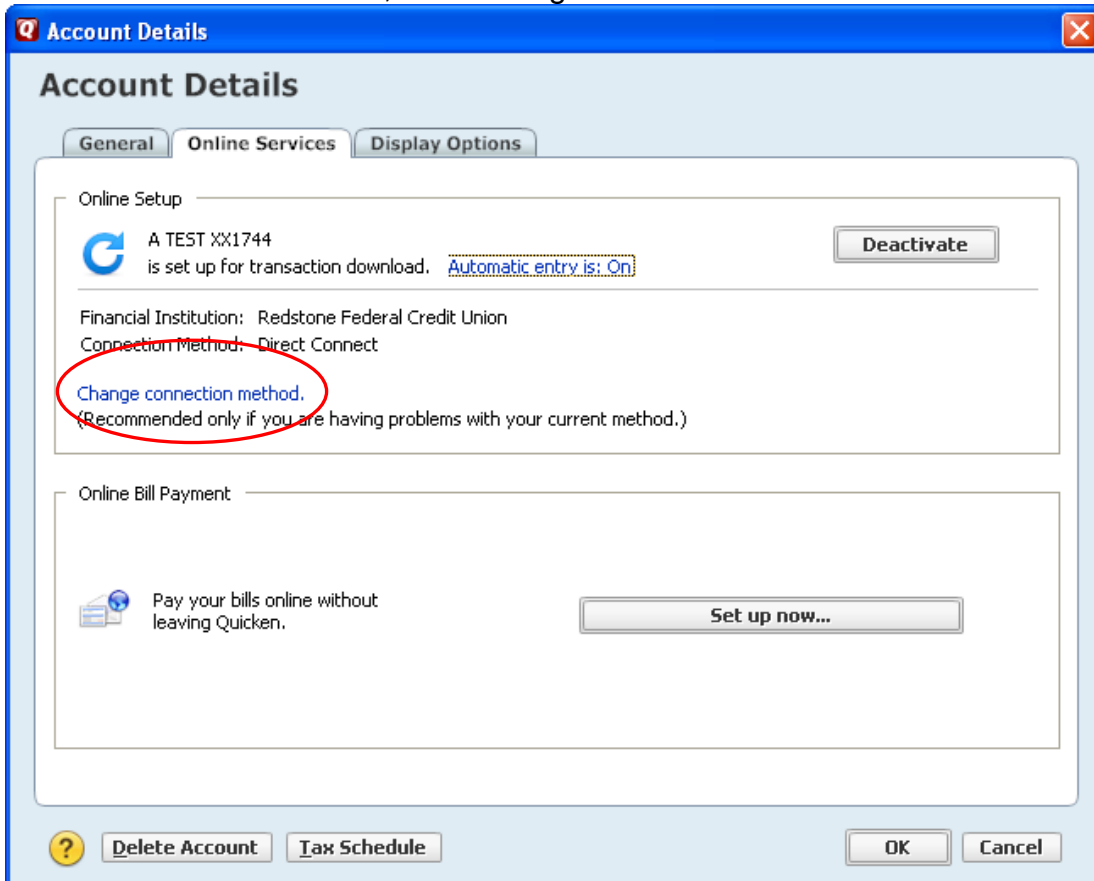

Open Quicken

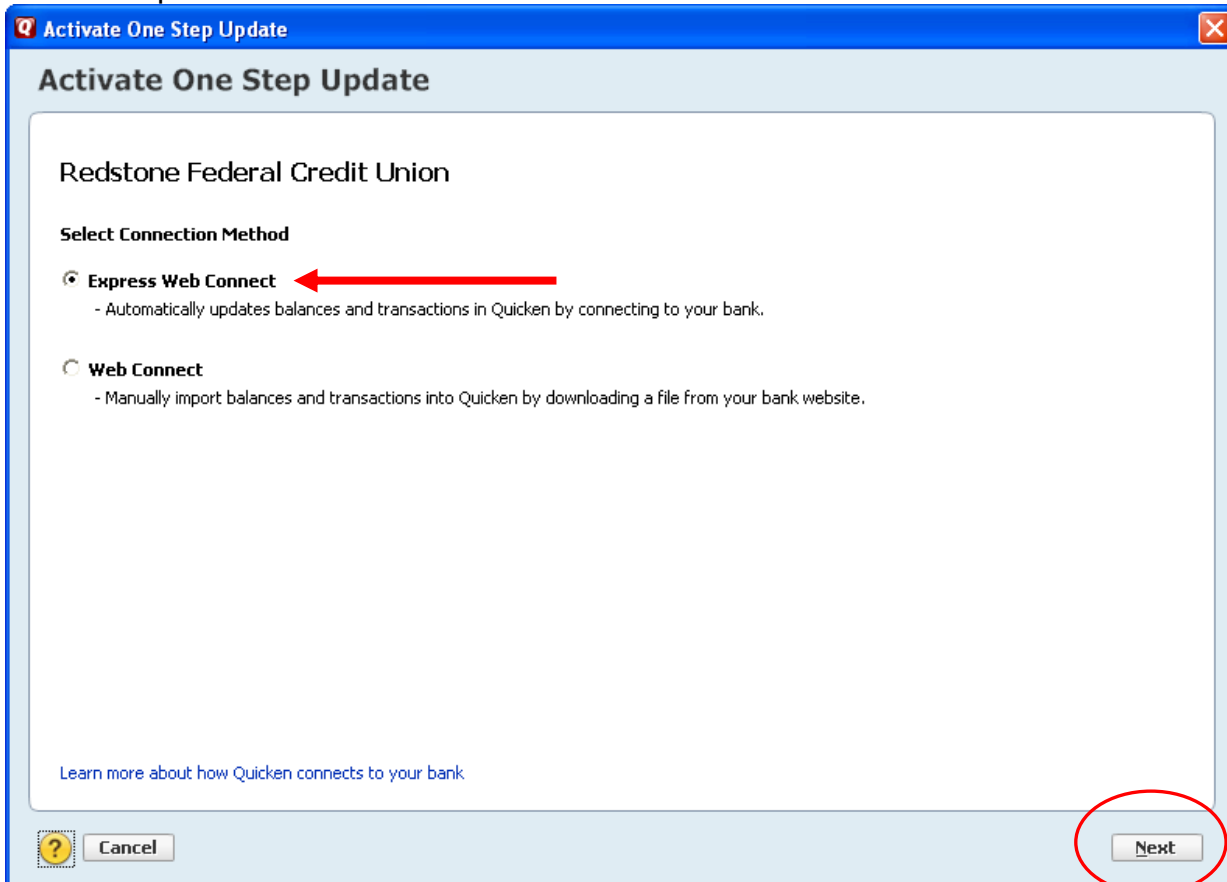

Right-click on account and choose Edit/Delete account

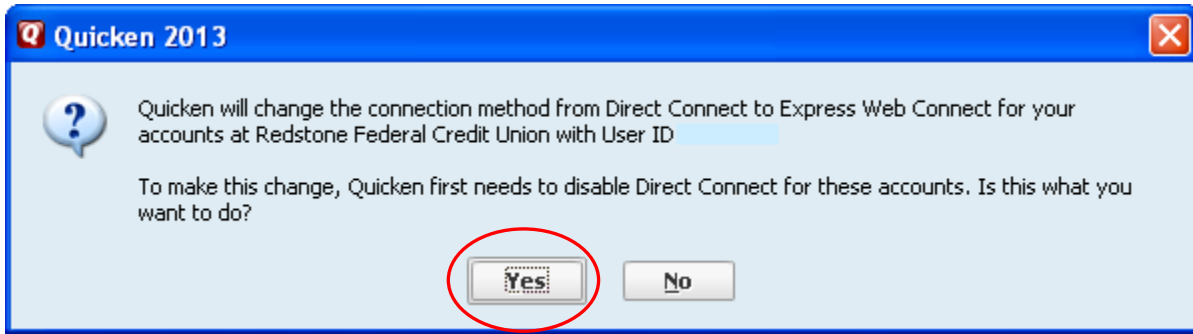

On the Online Services tab, click Change connection method.

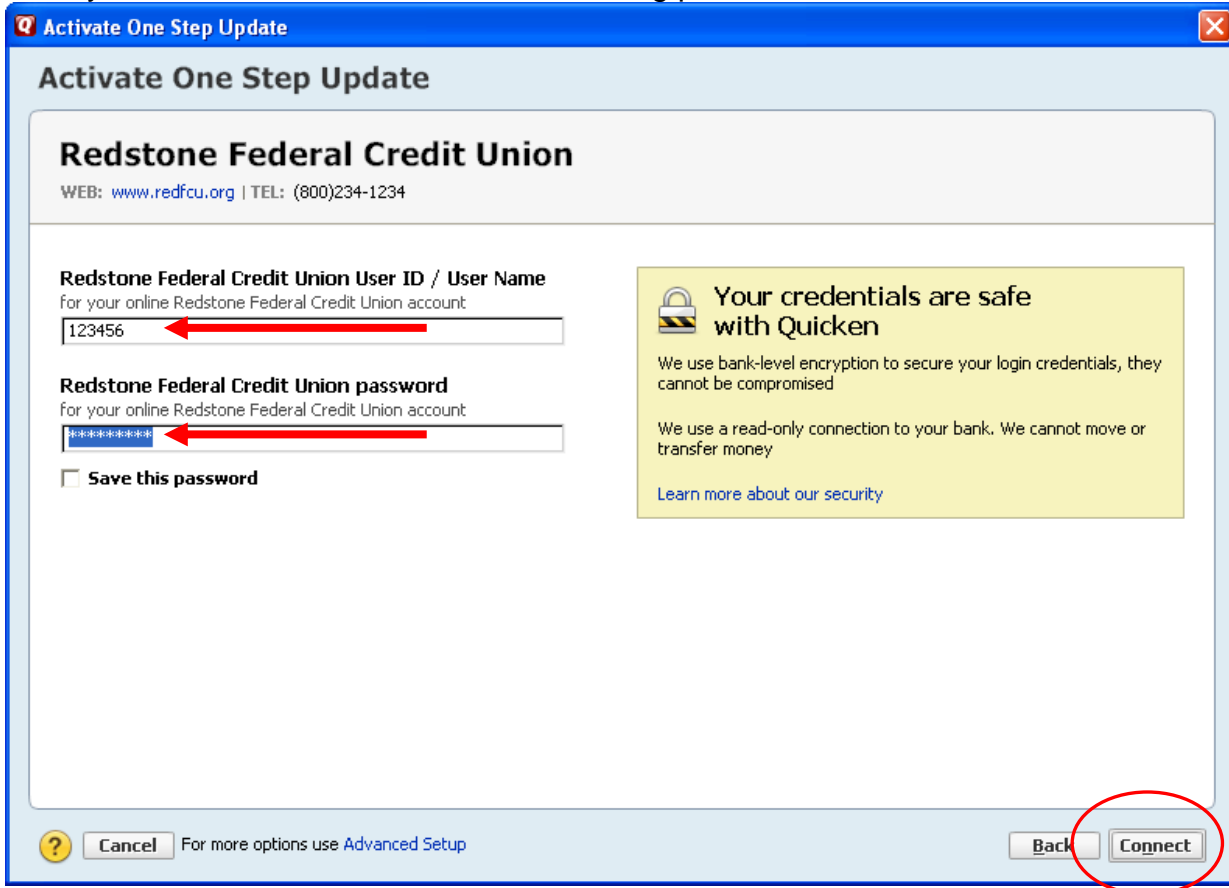

Choose Express Web Connect and Next

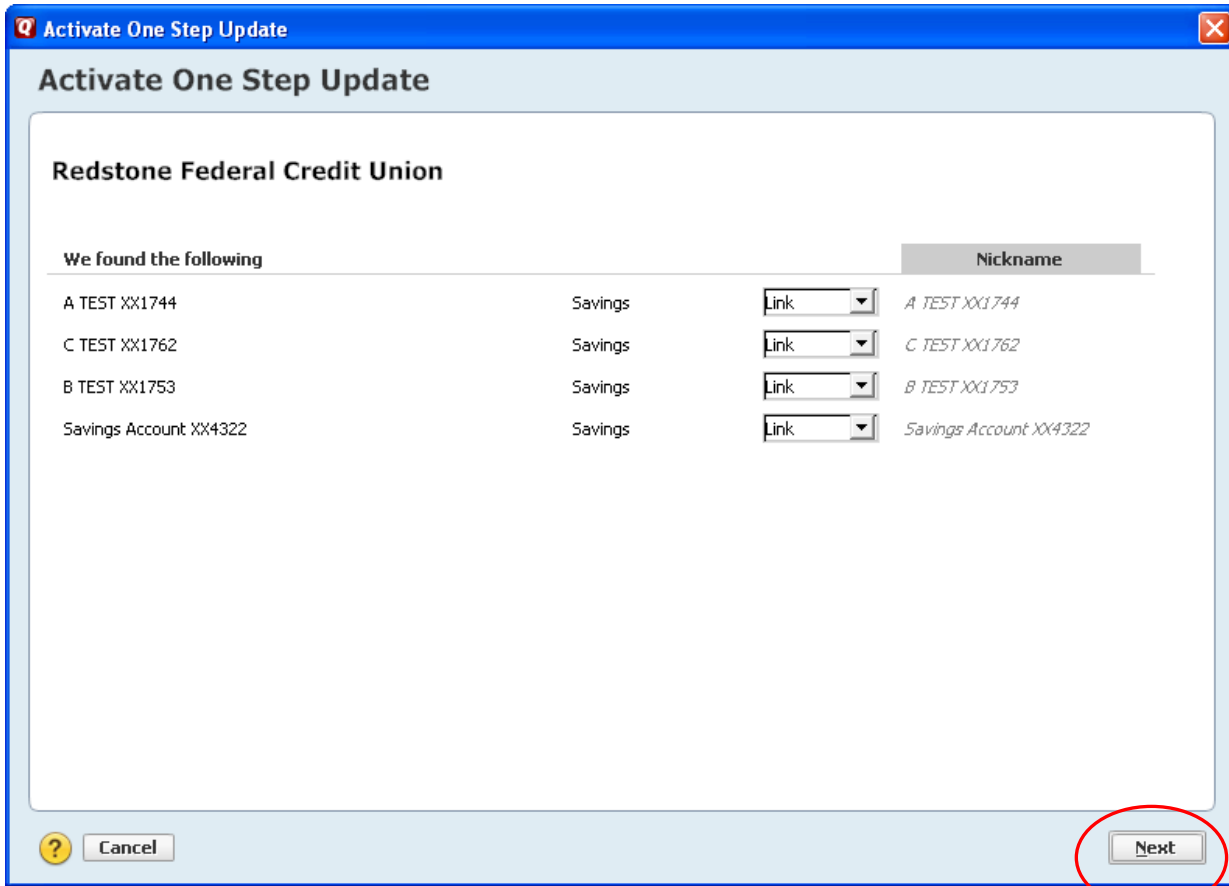

Click Yes

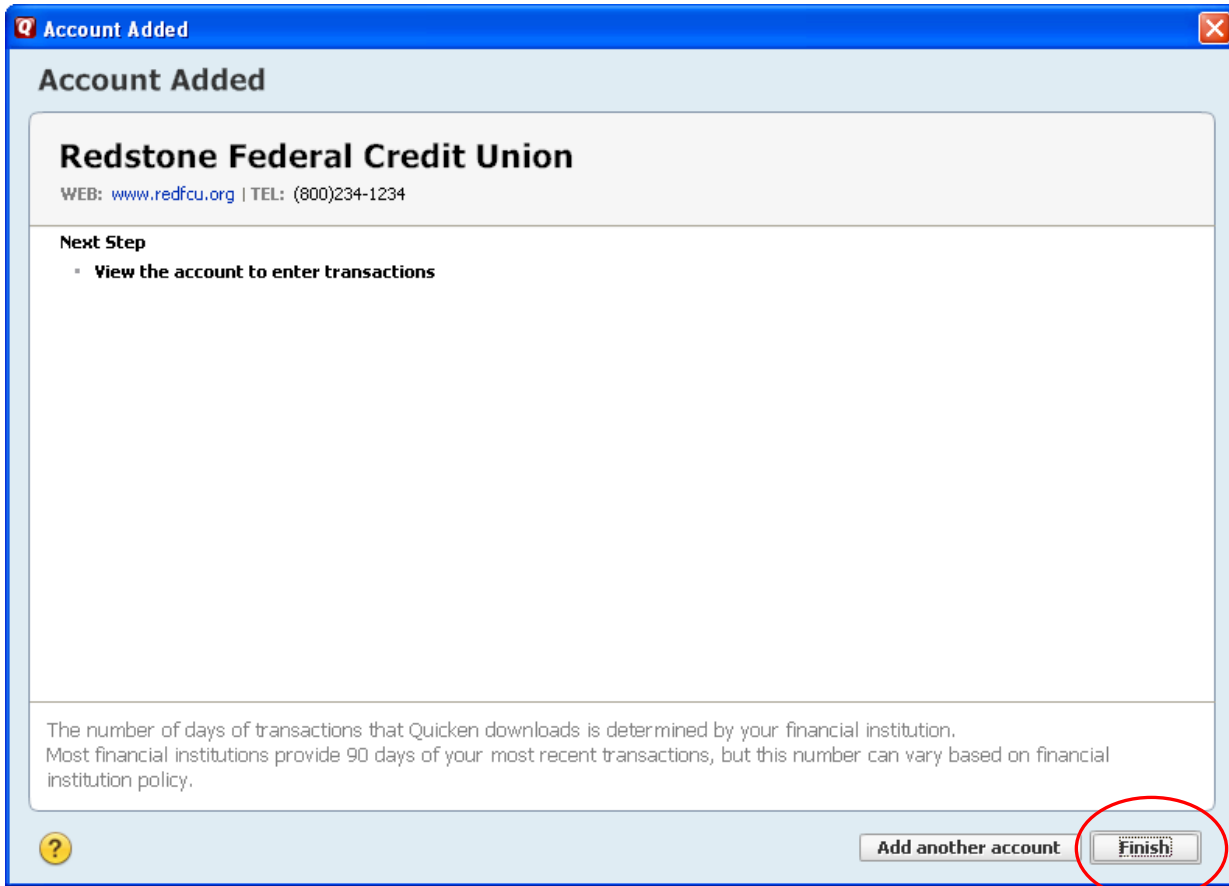

Enter your member number and online banking password then click Connect

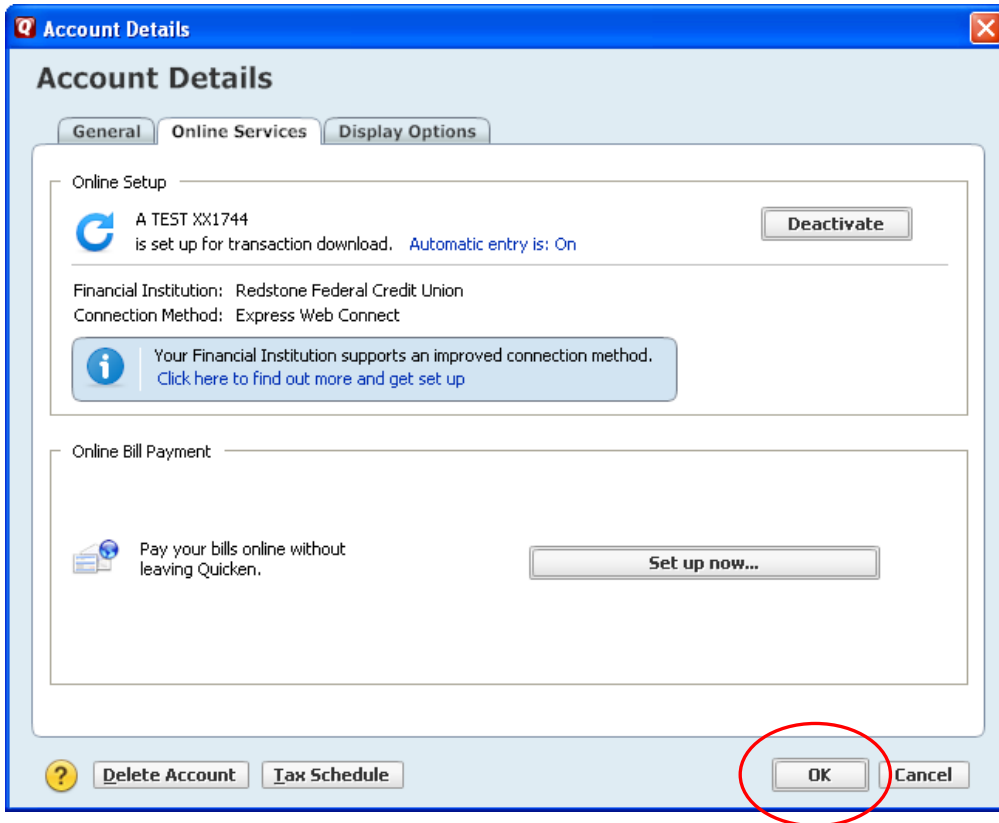

Click Next

Click Finish

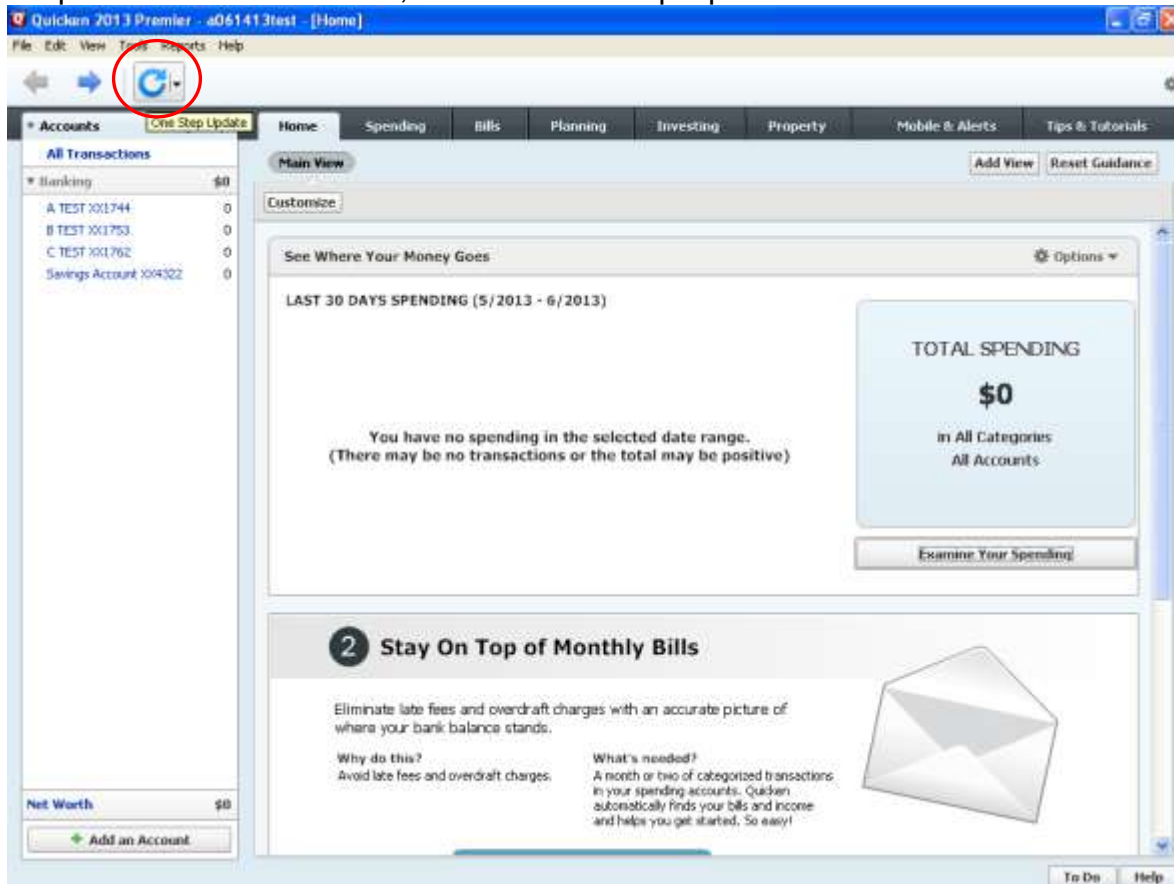

You are returned to the Account Details screen – click OK

Repeat for all accounts.

To update the accounts later, click the One Step Update icon

Enter your online banking password and click Update Now

Your account update was successful – click Close
